

Grays Harbor Family Support Program

PARENTS AS TEACHERS

Is it for me?

PAT is a great resource for those who are:

- ✓ expecting a child
- ✓ parents of children ages 0-3 and includes grandparents, aunts, uncles, foster parents, and other caregivers
- ✓ in need of extra support
- ✓ in need of support getting their child ready for school

Helping your child learn and grow is a big job.

It is very exciting but often hard, too.

Every family could use some support.

We can pair you up with a trained parent educator who can come to you wherever you are.

Personal visits Your parent educator can come to where you are to address your parenting concerns and answer your questions.

Group connections Fun events, information, and play groups with other parents who have small children. A time to learn, make friends, and support each other.

Developmental screenings Checking in during personal visits to ensure that any possible challenges related to hearing, vision, or learning are detected and addressed early.

Resource network Help finding and using community resources to help you reach your family goals.
